

Accenture Strategy	IIM Kozhikode	Vedanta Process Engineer
 jhanvig24@iimklive.com	 linkedin.com/in/jhanvigupta/	 +91 7006366087  India

Results-oriented strategy professional with 5+ years of experience delivering digital transformation, operational optimization, and measurable business growth across industrial, consumer, and digital sectors. Skilled in data-driven decision-making, inventory and category management, and cross-functional stakeholder alignment to drive scalable and sustainable impact.

WORK EXPERIENCE

5 Years 3 Months

Accenture Strategy - Management Consultant

(May'22 – Present)

Roles and Responsibilities

- Functional Lead – Global Industrial Manufacturer
 - Led digital transformation initiatives for a **\$4.25B US metals producer**, replacing legacy systems to drive horizontal expansion and optimize costs
 - Spearheaded the migration of **15+ dashboards** from legacy systems to **Power BI**, modernizing infrastructure to drive a ~25% increase in utilization
 - Designed and delivered **3+ enterprise dashboards** tracking key **KPIs**, engaging directly with top management to streamline performance visibility
 - Optimized **asset management** and **WIP inventory oversight** with analytical dashboards, enhancing discrepancy detection and predictive accuracy
- Program Manager – Global Industrial Manufacturer
 - Partnered with senior leadership to translate critical business strategy into **scalable analytics solutions** across global supply chain operations
 - Led a team of **6+ technical specialists**, overseeing product lifecycle of **~20 cloud-based inventory solutions** integrating analytics and automation
 - Redesigned the Demand Planning workflow, increasing efficiency and **cutting request cycle time by ~20%**, driving optimization of client operations
 - Increased **Power BI adoption** by over **30%** by designing and launching a dedicated website as a centralized resource hub for business stakeholders
- Subject Matter Expert – Asset and Business Development
 - Developed a **strategic POV on specialty material value chain**, delivering valuable frameworks to strengthen proposals through digital-led transformation
 - Conceptualized **50+ digital use cases** across Inventory, Planning, Maintenance & Quality, to drive efficiency, reduce costs, and enhance client value
 - Drove innovation through a POC on **Copper Bio-Heap Leaching** for a client to potentially increase recovery and reduce environmental impact

Professional Achievements

- Promoted** to Management Consultant and earned **distinctive achievement** merit for exceptional client impact and exceeding performance expectations
- Recognized with 3+ **Client Value Creation** awards over two years for delivering high-impact solutions and driving measurable and sustainable outcomes

Hindustan Zinc, Vedanta, Process Engineer

(Jul'18 – Jul'20)

Roles and Responsibilities

- Area In-Charge, Fumer Commissioning Team
 - Spearheaded the commissioning of Coal Pulverization in the Fumer Plant, overseeing a **₹5.7B** project, driving smooth and effective implementation
 - Led and optimized a **cross-functional team** of 5 direct reports, 30 mechanical, and 63 instrumentation technicians, increasing team productivity
 - Authored and standardized **50+ process technology documents** and **60+ safety interlocks**, enhancing operational workflows and risk mitigation
- Shift In-Charge, Leaching and Purification Team
 - Optimized Zinc recovery to **97.2%**, achieving the highest-ever Current Efficiency at **92%**, significantly improving operational performance and yield
 - Conducted **48+ Field Safety Interactions** and resolved over 70 hazardous risks and near-misses, strengthening site safety and regulatory compliance

Professional Achievements

- Led and **mentored 22 process engineers**, standardized 30+ SOPs, and successfully led a 48-hour commissioning, ensuring operational excellence
- Earned ‘**Exceptional**’ rating, ranking among the top performers out of **400** Graduate Engineers, recognized for high-impact and strategic contributions

INTERSHIPS

- Accenture Strategy, Management Consulting Intern (2021)
 - Developed an agile Power BI dashboard and led process analysis to identify and prioritize 80+ high-impact digital use cases, optimizing revenue, cost tracking, and value chain performance for client operations
